### THE APATHY EFFECT – *Led by iEmpathize*

Significant human rights violations thrive in environments where apathy, and even sympathy, prevail. When a society adopts empathy and actively responds to the cultural elements enabling abuses however, issues like human trafficking can be eradicated. The Apathy Effect exhibit is a compelling mixed media narrative. It is an immersive and moving way to be introduced to the issue of slavery in the US. *Parental discretion*

### SLAVERY FOOTPRINT

How many slaves work for you? There are more slaves bought and sold today than at any point in human history. But how many slaves work for you? Who is digging up the minerals in your smartphone or picking the cotton for your T-shirts? Discover your slavery footprint and learn how you can insist that the clothes we wear, the food we eat, and the products we use are made free of forced labor. *Family Friendly*

### FROM BEAN TO BAR – *The Story of Chocolate*

The average U.S. citizen eats over 11 pounds of chocolate (that's about 120 chocolate bars) per year! Yet very few of us know where our chocolate comes from or how it is produced. In this interactive exhibit, learn how cocoa is grown, harvested, and processed. Find out ways you can support the ethical sourcing and production of one of America's favorite treats! *Family Friendly*
